

Annexin V - FITC

Cat. No. ANXV-FT100 / ANXV-FT500
LOT P-030-STIR-01-FD-02
Quantity 100 tests/100 µl; 500 tests/500 µl (1 µl/1 test)
Purity > 99 % (SDS-PAGE)
Formulation PBS, 0,2% BSA, 0,1% sodium azide, pH 7,4
Shipping SHIPPED ON BLUE ICE
Long Term Storage + 4°C, DO NOT FREEZE!

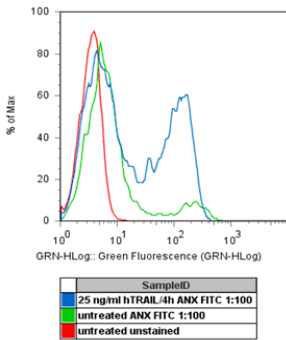

Fig. 1: Analysis of TRAIL-induced apoptosis of cell lines JURKAT by flow cytometry. Cells were treated for 4 hrs with rec. TRAIL (25 ng/ml in their growth medium – RPMI+10% FCS) and TRAIL-induces apoptosis was analyzed by Annexin V-FITC staining.

For research and manufacturing only, not for use in diagnostic applications.

Country of origin: Czech Republic

Apronex does not guarantee that the product can be used for special application. Apronex warrants that its products conform to the information contained in this Data Sheet.

Product is photosensitive and should be protected from light. Centrifuge vial prior to opening.

This lot has been reviewed by Quality Assurance in compliance with requirements of Apronex's Quality System.
